APPLICATION FOR WATER AND/OR WASTE WATER SERVICE - continued

Revised 3/04

Account No.: _____

In consideration of granting of this permit, the undersigned agrees:

- 1. To furnish additional information related to the installation or use of the commercial sewer for which this permit is sought as may be requested by the Operator of the Wastewater Treatment Facility and Drinking Water Supply.
2. To accept and abide by all the rules and regulations of the Commission, where the said business is located, and all pertinent ordinances now and future.
3. To operate and maintain any waste pretreatment facilities, in an efficient manner at all times, and at no expense to the County.
4. To cooperate at all times with the Operator and/or representative in their inspecting, sampling, and study of the industrial/commercial wastes, and any facilities provided for pretreatment.
5. To notify the Operator immediately in the event of any accident, negligence, or other occurrence that occasions discharge to the sewers of any wastes or process waters not covered by this permit.
6. It is up to the applicant to provide water meter(s) for all services discharging into the sewer system. The Operator and/or representative will be allowed on said property to read the water meter(s). It is also up to the leasee to maintain the water meter(s) in proper working order.
7. The issuance of this permit does not preclude any applicable State/Town permits.
8. Water meters for non-sewer usage are recommended, as rate is based on per gallon from the water meter.
9. Furnish all copies of MSDS (Material Safety Data Sheets) that may be used in any operation which would be disposed of through sewer lines.
10. Meter installation and type shall be approved by Water and Wastewater Operator.
11. Water services shall be tapped off of the main waterline. A corporation stop, curb stop and water service shut off valve located outside the building, following local codes.
